I am and have been personally acquainted
with John M. White of Jackson County since the
year 1831, I recognize him as being the same
person who makes the foregoing application, and
know that I met with him in October 1835 at Goliad
a few days after the capture of that place by Capt Collingsworth,
that he was then in the service as I understood a
member of said company & participated in the capture
of the Town. He is a man of most perfect veracity
and hence I believe his whole statement to be true.
His age I believe to be correctly given, is a resident
of Jackson County and I believe the claimant to be
justly entitled to a pension for service under
the Pension act approved August 13th 1870.
